PART - III
ECONOMICS / طامعات
(Urdu & English Versions / ادوار اور انگریز ہیڈز)

Time Allowed : 3 Hours ] [ Maximum Marks : 200

Instructions :
(1) Check the question paper for fairness of printing. If there is any lack of fairness, inform the Hall Supervisor immediately.
(2) Use Blue or Black ink to write and underline and pencil to draw diagrams.

Note : Answer all the questions.

14x1=14
Choose the most suitable answer from the given four alternatives and write the option code and the corresponding answer.

The author of wealth definition is :
(a) Samuelson (b) Alfred Marshall
(c) Adam Smith (d) Lionel Robbins

/ Turn over
Red tapism and corruption lead to:

(a) Inefficiency of production (b) Inequality of income and wealth
(c) Absence of technology (d) Efficient use of resources

Single commodity consumption mode is:

(a) Production possibility curve (b) Law of equimarginal utility
(c) Law of supply (d) Law of diminishing marginal utility

Demand for a commodity depends on:

(a) Price of that commodity (b) Price of related goods
(c) Income (d) All the above

The degree of response of demand to change in price is:

(a) Income elasticity of demand (b) Cross-elasticity of demand
(c) Price elasticity of demand (d) All the above
The time element in price analysis was introduced by:
(a) J.R. Hicks  (b) J.M. Keynes
(c) Alfred Marshall  (d) J.S. Mill

The initial supply price of land is:
(a) Zero  (b) Greater than one
(c) Less than one  (d) Equal to one

Average variable cost is obtained by dividing:
(a) TC/Q  (b) TFC/Q  (c) TVC/Q  (d) None

Under perfect competition, the demand curve is:
(a) upward sloping  (b) horizontal
(c) downward sloping  (d) vertical

The demand for labour is:
(a) effective demand  (b) direct demand
(c) derived demand  (d) elastic demand
The classical theory assumed the existence of:
(a) Unemployment  (b) Disguised unemployment
(c) Full employment  (d) Under-employment

The marginal propensity to save is:
(a) \( \frac{\Delta S}{\Delta Y} \)  (b) \( \frac{\Delta C}{\Delta Y} \)  (c) \( \frac{\Delta P}{\Delta Q} \)  (d) \( C \div Y \)

During inflation:
(a) businessmen gain  (b) wage earners gain
(c) salaried people gain  (d) rentiers gain

Tax revenue deals with the:
(a) fees  (b) kinds of taxes
(c) revenue  (d) non-tax revenue
Fill in the blanks with suitable answers.

Production refers to the creation of __________.

Most of the economic activities of capitalism are centered on __________.

Wants may be both __________ and __________.

Adding up of individual consumers schedule is __________.

__________ is the major determinant of Supply.

__________ is man-made physical goods used to produce other goods.

Answer each of the following questions in a word or two.

39. What is the other name for Economics?

40. What is the result of over-production?

41. What is Indifference Curve?

42. When the demand for labour is inelastic, can a trade union raise wages?

43. Give an example for fixed input.

44. Give the condition for producers equilibrium.

45. What is an envelope curve?

46. What is the essential feature of monopolistic competition?

47. Who is the author of Agio theory of Interest?
Who is the author of “General Theory of Employment, Interest and Money”? 

Name the bank which controls money supply in a country.

What is Public debt?

PART - B / B

Note: 
(i) Answer any ten of the following questions.
(ii) Answer for each question should be about four or five lines.

Describe the relationship between Economics, Mathematics and Statistics.

Name the important general economic systems.

What is Opportunity Cost?

What are the classifications of goods?

Why does the demand curve slope downwards?

What is equilibrium price?

Differentiate the short period from the long period.
What is meant by division of labour?

What are the forms of capital?

Mention the relationship between MC and AC.

What are economic costs?

Distinguish between real wages and money wages.

What are the three motives of Liquidity Preference Theory?

What is stagflation?

What are the canons of taxation?
Note: (i) Answer any six of the following questions.
(ii) Answer for each question should be about a page.

What are the merits and demerits of a mixed economy?

Explain the shift in supply with diagram.

What are the functions of entrepreneur?

Explain the short run average cost curves.

Explain Marginal cost with suitable illustration.

Explain the features of perfect competition.

What are the criticisms of Say’s Law? [any ten]

What are the determinants of consumption other than income?

Define Budget. Explain the balanced and unbalanced budget.

Differentiate between the direct and indirect taxes.
PART - D

Note :
(i) Answer any three of the following questions.
(ii) Answer for each question should be about three pages.

Discuss the nature and scope of economics.

What is indifference curve map? Explain the properties of indifference curve with diagrams.

Explain the methods of measurement of price elasticity of demand in detail.

Explain the price and output determination under monopoly.

Examine Ricardian Theory of Rent.

Describe the functions of money.
